

FODOR & ASSOCIATES LLC

Community
Planning Consulting

Helping to build sustainable communities through...

- Growth management, land use planning and case representation
- Fiscal, economic and environmental impact analysis
- Research, analysis and reporting
- Sustainability and quality-of-life indicators
- Citizen involvement, outreach and facilitation

Fodor & Associates is a consulting firm based in Eugene, Oregon and specializing in community planning and land use consulting with an emphasis on growth management, development impact analysis, and environmentally-sustainable solutions. Fodor & Associates combines technical skills in engineering, economics, and energy and natural resource planning with a solid background in urban planning and land use laws and regulations.

Eben V. Fodor is the principal of Fodor & Associates and has more than 19 years of professional consulting experience. He has performed consulting work for major organizations and local governments including the Oregon cities of West Linn, Bandon, Eugene, and Lake Oswego, Maryland Dept. of Natural Resources, the Oregon Education Association, Columbia Public Interest Policy Institute, Climate Solutions, Carrying Capacity Network, Oregon Shores Conservation Coalition, 1000 Friends of Oregon, White Cloud Council, University of Oregon, and many more. Projects have included economic forecasting, fiscal impact analysis, growth management, land-use planning, and research and analysis. He represents businesses, individuals and community groups in land use applications and appeals, and helps resolve land use and development conflicts. He holds a Masters degree in Urban and Regional Planning, a Masters in Environmental Studies (both from the University of Oregon), and a B.S. degree in Mechanical Engineering from the University of Wisconsin – Madison.
